

If the fair is your goal, I'll give you direction
To earn and save money is a better selection.
Don't spend that two dollars, rather stash it away.
And instead spend your time on a choice that will pay.
I can give you a job, and it isn't too hard.
I'll pay you three dollars if you'll rake up the yard.

Why not make your choice now, use the scale as your guide.
What you save and you earn will go on the plus side.
With saving and earning and a little less buying,
You'll soon have more money with a little more trying.
Steer your choices away from financial collisions.
Use the scale and your brain to make wise decisions.

Then Investo came back with a man made of tin
With a coffee pot head, and aluminum skin.
“Did you say decisions, or am I hearing voices?
With my handy machine you’ll get better choices.
My Decisionator will make your choices for you.
If decisions you need, he’ll decide what to do.
